

2021 ASR Participant Code of Conduct:

To ensure a healthy Avondale experience for everyone I will:

- Undergo a pre-participation medical screening and ensure I have all needed medications and that they are not expired.
- Understand the signs and symptoms of COVID-19 and truthfully report to my Scout Leader if I or anyone in my family are exhibiting those symptoms.
- Check on my fellow Scout members if I suspect they are not feeling well.
- Wear a cloth face covering whenever I am around people other than my family.
- Wash my hands with soap and water as often as I can especially before eating and after using the restroom or being in public spaces. Use an alcohol hand sanitizer when soap and water are not available. (Hand sanitizer provided by the Scout Units)
- Cover my mouth and nose with a tissue or my elbow when I cough or sneeze and wash my hands afterwards.
- Avoid shaking hands.....I will embrace the “elbow bump”!
- Avoid sharing food, gear or water bottles.
- Unless individuals are from the same family, I will make sure they have their own sleeping areas, with no shared tents.
- It’s up to ME/US (the units) to make sure that we are cleaning the bathrooms frequently.
